

ANNALS OF THE NEW YORK ACADEMY OF SCIENCES

VOLUME 410

July 29, 1983

FIFTH INTERNATIONAL CONFERENCE  
ON COLLECTIVE PHENOMENA

*Editor*

JOEL L. LEBOWITZ

---

CONTENTS

Foreword. <i>By</i> JOEL L. LEBOWITZ .....	ix
On the Field of the Electric Hertzian Dipole in a Cold Magnetoplasma. <i>By</i> YA. L. AL'PERT .....	1
Kinematics, Quasilinear Thermodynamics, and Rheology in Nonlinear Theory of Viscoelasticity with the Use of Recovery Strain as an Internal Parameter. <i>By</i> A. I. LEONOV .....	23
Metal Surfaces Studied by Electron Energy Loss Spectroscopy. <i>By</i> J. ONGSAAED AND I. CHORKENDORFF .....	39
Deposition Conditions Related to the Chemical and Optical Properties of Hydrogenated Amorphous Silicon Thin Films. <i>By</i> J. PERRIN, B. DREVILLON, AND M. TOULEMONDE .....	47
Order Parameters for Broken Abelian Symmetries. <i>By</i> A. I. SOLOMON .....	63
A Structure Theorem for a Class of Locally Convex *-Algebras. <i>By</i> JULIO ALCÁNTARA .....	71
Groups with Small Cardinality of the Cubes of Their Two-Elements Subsets. <i>By</i> L. V. BRAILOVSKY AND G. A. FREIMAN .....	75
An Effective Formula for the Number of Solutions of a System of 0,1 Linear Equations. <i>By</i> P. L. BUZYTSKY AND G. A. FREIMAN .....	83
Nonclosed Semigroups with Cancellation. <i>By</i> G. A. FREIMAN .....	91
On Minima of Rational Indefinite Hermitian Forms. <i>By</i> L. YA. VULAKH .....	99
On Subdifferentiability Spaces. <i>By</i> ALEKSANDR D. IOFFE .....	107
Control of Linear Hereditary Systems with Control and Output Delays. <i>By</i> R. B. VINTER .....	121
On a Problem of D. R. Cox. <i>By</i> M. H. A. DAVIS .....	129
Smooth Optimization Methods in Discrete Minimax Problems. <i>By</i> R. A. POLYAK .....	133
On the Problem of Function Approximation by Sample Set Processing for an Incompletely Determined Model. <i>By</i> VIKTOR BRAILOVSKY .....	137
On the Problem of Function System Selection for Function Approximation Based on the Use of a Sample Set with Defects. <i>By</i> VIKTOR BRAILOVSKY ...	149

On the Phenomenon of the Worsening of the Quality of Some Statistical Procedures on Samples of Increasing Size with Missing Values. <i>By</i> VIKTOR BRAILOVSKY .....	163
On Deductive Relational Databases. <i>By</i> JACK MINKER.....	181
A Transformation of Economic Iterative Aggregation Processes into Provably Convergent Processes. <i>By</i> L. M. DUDKIN AND V. A. KASPARSON.....	201
The Multiple Criteria Decision-Making Process: Using the Methods of Multivariate Statistical Analysis. <i>By</i> DAVID SOLOVEYCHIK.....	205
A Method for Solving the Multiple-Objective Linear Programming Problem. <i>By</i> DAVID SOLOVEYCHIK.....	213
Analyzing and Synthesizing Production Systems by Simulative Modeling. <i>By</i> DMITRI I. GOLYENKO .....	227
Concerning the Synthesis of Optimal Planning Models in Multilevel Production Systems: Part I. <i>By</i> DMITRI I. GOLYENKO.....	237
Concerning the Synthesis of Optimal Planning Models in Multilevel Production Systems: Part II. <i>By</i> DMITRI I. GOLYENKO.....	243
Planning and Control by Means of Alternative Stochastic Network Models: Part I. <i>By</i> DMITRI I. GOLYENKO.....	249
Planning and Control by Means of Alternative Stochastic Network Models: Part II. <i>By</i> DMITRI I. GOLYENKO .....	255
Optimum Design of Concrete Shells. <i>By</i> M. I. REITMAN.....	263
Multiextremal Optimization Problems. <i>By</i> M. I. REITMAN.....	271
Self-Duality and the Logarithmic Gas in Three Dimensions. <i>By</i> LAURENCE JACOBS AND ROBERT SAVIT .....	281
An Experimental Test for Modes of Explicit Chiral Symmetry Breaking in Strong Interactions. <i>By</i> EUGENE M. CHUDNOVSKY.....	291
Latest Developments in the Area of Photon-Photon Collisions. <i>By</i> PAUL KESSLER .....	295
Korteweg-de Vries and All That. <i>By</i> L. A. DICKEY.....	301
Perturbative Solution of Rossler's Equations for Chaotic Motion. <i>By</i> M. NAUENBERG .....	317
Thermal and Shot Noise Effects on Nonlinear Oscillators. <i>By</i> E. BEN-JACOB, D. J. BERGMAN, B. J. MATKOWSKY, AND Z. SCHUSS .....	323
Finite Size Scaling: Part II. <i>By</i> E. BRÉZIN .....	339
One-Dimensional Models of Anisotropic Fluids. <i>By</i> JOEL L. LEBOWITZ AND JEROME K. PERCUS .....	351
Errata .....	361
Index of Contributors.....	365
